2. EVALARM App

With EVALARM you can simultaneously **distribute** information accurately and immediately **receive** it.Because by using the **EVALARM App** all users become a tool that can help in the detection and resolution of emergencies.

Once your account has been created in your location, you will receive an email with your **login name** (namespace) of the location and the links to download the app **from** the **Play Store** or the **App Store:**

On the following pages we will show you how you can arrange the EVALARM app to **create** alerts on mobile phones and **receive** information.
